```
graph LR; Dashboard[Dashboard] --> Income[Income]; Dashboard --> Expense[Expense]; Dashboard --> Balance[Balance];
```

The diagram illustrates the flow of money from a central 'Dashboard' to three categories: 'Income', 'Expense', and 'Balance'. The 'Dashboard' is represented by a large, light gray rounded rectangle at the top. Below it, three smaller, light gray rounded rectangles are arranged horizontally, each representing a category. Arrows point from the 'Dashboard' to each of these three categories, indicating the flow of money. The 'Income' category is on the left, 'Expense' is in the middle, and 'Balance' is on the right. The 'Income' and 'Expense' categories are further divided into sub-sections, represented by darker gray rounded rectangles, but no specific data is provided for these sub-sections.
